

**First Week Response Sheet**

Printed copy is due the second day of classes

**Your First and Last Name:** \_\_\_\_\_

Do you have any previous experience with Adobe Photoshop, Adobe Illustrator, Wordpress, and/or audio editing? If so, please explain the extent of your experience in each category and give an example of a project you did. (It is fine if you have no experience at all!)

In your own words, describe the mission of the Media Archeology Lab at the University of Colorado at Boulder. See <https://mediaarchaeologylab.com/> and assigned reading links on class schedule.

After completing the required readings for today, choose a technological artifact that you feel defines you personally or your generation as a whole. What is it and why does it define you or your generation? Bring it with you to class to share. You will also need to take a digital photograph of it for next week.
