

Name: _____

Project 3: Oral History

Complete this sheet and return to your instructor on Tuesday, November 13

1. Who do you plan to interview? What generation are they from and how do you think this compares to your generation?
2. What specific type of technology do you plan to ask them about? What theme (or themes—you might have two or three) do you think will provide context for your discussion?
3. Where do you think you will conduct your interview? Will you and the interviewee be comfortable in this location? Can you remain uninterrupted in this location until your conversation is over, knowing that you may want to talk for about an hour? Will this location be conducive to recording (a quiet, secluded, smaller space)?
